

Submitter: Phillip Fischer
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I am in vehement opposition to SB 3390. I am a fly fisherman and commercial fly Tier. This bill is so broadly written it would render much of what we do in the fly fishing industry illegal. I have been in this business for over 50 years. Never have I seen such an ill conceived piece of legislation. Fly tiers make use of fur and feathers in this art form. Most of the materials we use have been collected from legitimate sources and would otherwise be wasted. This bill will do little to prevent the legal take of animals through hunting or other commercial means, but will outlaw all use of furs used in fly tying and in the sport of fly fishing.

I strongly oppose this bill.
