Testimony in SUPPORT of HB 3202:

I hope that you will be a yes vote for House Bill 3202, which seeks to mitigate the detrimental effects of light pollution on our environment.

House Bill 3202 builds on what other states have already done. Nocturnal animals are dependent upon uninterrupted nighttime hours, and behavioral changes stemming from over-illumination can have effects on humans' ecosystem as well.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
