

Submitter: Garrett Stephens

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

As a born and raised Oregonian and outdoorsman, I oppose SB 348. Not only would my rights be infringed upon but the rights of future generations will be too, and these include my future children. I plan and pray for the time that I will be able to share the love and respect of firearms with my children as my father did with my brother and myself. The rights and the wrongs and how a firearm is only a tool. It is the great equalizer and does not discriminate by size, shape, color, or creed. It is a tool in which great goodness or horrible evil can be inflicted. It is my job to train and teach, not the governments to decide who, what, when, and where firearms are to be.

Thank you for your time.
