

Submitter: Buddy Woodberry  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3390

I'm writing to ask that you Oppose HB 3390.

Bills like this are divisive and inflaming and the only thing that will come of this bill is further division and Political separation between rural and city people. Our country continues to divide by Political battles, in a time that we must learn to come together. We All could use more patience and could learn to be more accepting of each other and different ways of life from those that are different. There are many problems in our society and allot of the political discourse inflames these divides and harm for all of us. .

This year I ask you to focus on some real issues and try and find common ground between our two wings of the political system, and not try to focus on those divisive items and play Politics.

My Regards,  
Buddy Woodberry
