

Submitter: John York
On Behalf Of: Oregon residents
Committee: House Committee On Judiciary
Measure: HB3390

To whom it may concern.

I am submitting this request to not follow through with the fur ban. Fur trading is a way of life for some and one of the main reasons Oregon was founded. This is a major way of life for so many families.

It's a family tradition

It's a Oregon tradition and

It's a American tradition

Please stop the change and leave us fur bearing trappers and hunters alone.
