

Submitter: Savannah Staggs

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB3431

I work in an office that has received funding from M110 and by losing this funding, it will drastically impact the services we have been able to provide to peers who are struggling. Because of M110, We are able to help populations who otherwise would not receive assistance without this bill. I strongly urge you to oppose this bill and remember the individuals suffering from substance use disorder and the ways they would benefit from M110 funding.
