

Submitter: Brian Jazek  
On Behalf Of: Law abiding citizens  
Committee: Senate Committee On Judiciary  
Measure: SB348

I strongly oppose this bill. Instead of going after law abiding citizens we should address peoples mental health, the drug, and homeless crisis. Put police officers in schools to stop school shootings. Educate the American people on proper gun safety and stop spreading false statements, this bill is practically a second version of measure 114 that's already being challenged in court due to being unconstitutional. It also includes an increase to purchase the permit to purchase a weapon when we already go through a mandatory background check and finger printing process. Keep in mind background checks are currently taking months to be approved while a criminal will still be able to get a weapon at any time without going through this process that we already have implemented so why would they follow any new law? Guns don't kill people. People kill people. Measure 114 passed by a very small amount of votes in which a lot of the voters in support of the measure have never handled a gun or been around one they just hear what the news tells them which I believe also don't know what they're talking about. I like to think eventually the attack on our 2nd amendment rights will stop but I know that's more of a dream than a reality. Please take the time and consider what I along with all the other Oregonians have to say. This is not what we want or what we need.

Thank you for your time. - Brian Jazek
