

Submitter: Jeanmarie Kapp
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I am a law-abiding Oregon citizen who opposes SB 348.

Oregon is over-capacity on its gun control measures, and lacks manpower and resources to further layer the legal bureaucracy with more requirements.

Law abiding gun owners are not the problem. Our inability and unwillingness as a society to address mental health, drug abuse and gang violence as the preeminent causes for gun incidents means we will actually not ever get to the root causes of the issue.

Please vote this down and instead focus on providing much-needed support and resources for those suffering from mental illness and drug addiction, and provide more police support for areas in the state where gangs are a leading cause of Oregon citizen death and injury.

Thank you
