Measure: HB3202

IN SUPPORT OF HB 3202

I care about this issue..as does my wife. We do far too much harm to the 'natural' in our lives..this includes circadian rhythms..we harm ourselves and other creatures..there are satisfactory compromises.

I am writing to urge your support of HB 3202, in order to help improve wildlife welfare, human health, and our environment generally.

House Bill 3202 builds on what other states have already done. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
