HB 3202:

Bird populations are dwindling and it's time we take the necessary steps to mitigate unnecessary bird deaths. Please support House Bill 3202 to create standards to limit and mitigate light pollution across Oregon.

Oregon needs to follow step with what other states have already done. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

I urge you to protect our night skies now by supporting HB 3202.
