Measure: HB3202

Dear Legislators,

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which will create standards to limit and mitigate light pollution across Oregon.

It's time for Oregon to get to work to address this issue. Nocturnal animals are dependent upon uninterrupted nighttime hours, and behavioral changes stemming from over-illumination can have effects on humans' ecosystem as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
