Committee: Joint Committee On Transportation

Measure: HB3202

IN SUPPORT OF HB 3202

Please support House Bill 3202, in order to protect our ecosystem against the damages caused by light pollution.

Oregon should follow the lead of other states that have already taken this step. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
