

Submitter: T Goosen

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

To the Oregon Legislature:

Please support HB 3202 to help reduce damage done by light pollution to wildlife and possibly humans.

Nocturnal animals are dependent on uninterrupted nighttime hours and need this protection. Over-illumination can affect humans as well.

Many other states have taken such steps already, and I'd like to see Oregon join them.

Too often we wait until we are on the brink of no return before we try to restore an ecosystem or species at great effort and expense, and taking action today makes it easier to protect Oregon's night skies now.
