

Submitter: Stacey Krish

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

Dear Oregon Lawmakers:

Please support House Bill 3202, which will create standards to limit and mitigate light pollution across Oregon.

House Bill 3202 builds on what other states have already done. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well. Remember, we people are animals, too, and light pollution isn't good for anyone, neither is constant noise for that matter.

Having lived in rural Wyoming and Arizona, I can tell you that western Oregon is awful as far as light pollution. Let's not let it get any worse!
