

Submitter: Bruce Alber

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

To the Oregon Legislature:

Please support House Bill 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

Many other states have taken such steps already. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.

Most people cannot see stars in the beautiful night sky. We must work to preserve dark skies and cut back on glaring, wasteful lights!
