Measure: HB3202

Testimony in SUPPORT of HB 3202:

I am writing to urge your support of HB 3202, in order to protect our ecosystem against the damages caused by light pollution.

This is not a new concept, and in fact other states have already implemented such measures. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
