Measure: HB3202  
To Oregon Lawmakers:

I am writing to urge your support of HB 3202, in order to protect our ecosystem against the damages caused by light pollution.

Oregon should follow the lead of other states that have already taken this step. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
