Committee: Joint Committee On Transportation
Measure: HB3202

Dear Legislators,

I hope to count on your support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

House Bill 3202 builds on what other states have already done. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
