Committee: Joint Committee On Transportation  
Measure: HB3202

IN SUPPORT OF HB 3202

I hope to count on your support of the Night Skies bill, HB 3202, which will create standards to limit and mitigate light pollution across Oregon.

This is not a new concept, and in fact other states have already implemented such measures. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
