

Submitter: Jeff Willson
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

Dear Legislators,

I hope to count on your support of the Night Skies bill, HB 3202, in order to help improve wildlife welfare, human health, and our environment generally.

House Bill 3202 builds on what other states have already done. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.

When I have people over for some backyard astronomy and show them the night sky, it is always a 'wow' time. People forget the awesome and subtle beauty of the night sky. Please help preserve and enhance this gift.
