Measure: HB3202

Dear Legislators,

Please support House Bill 3202, which will create standards to limit and mitigate light pollution across Oregon.

It's time for Oregon to get to work to address this issue. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
