

Submitter: Julie
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

IN SUPPORT OF HB 3202

Please support House Bill 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

It's time for Oregon to get to work to address this issue. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.

I live adjacent to a wetland and see all of the migratory species of birds journeying through. However the incessant lights from McLoughlin Boulevard and the surrounding car lots have so many lights on 24/7/365 cause so much disruption and light pollution. Something must be done.
