Measure: SB348

Please address the issue of gun violence not the gun. We need to look at the geographical issue in this state (Portland) being the predominate area of violence and from what I see is mostly gang related illegal guns which will always be obtained until you take the criminal off the street. Making it harder (more expensive) for law abiding citizens to obtain a firearm is not the answer. Enforcement of laws already in place is the answer and trying to mix other problems (Drug use, etc) into this bill is also deflecting from the issue. I am not a rocket scientist but I think the real issue is apparent Illegal guns are the issue please address it.
