Measure: SB348

Magazine ban - will be held unconstitutional  
Permit to purchase - will be held unconstitutional  
Restricting places for legal carry of firearms - will be held unconstitutional

Wasting tax dollars to further a political agenda. Placing the lives of law-abiding citizens in legal jeopardy of violating laws created to criminalize previously legal conduct.

It would be nice if the individual legislators and legal advisors could be held financial responsible when they create laws they know will not pass constitutional muster.

Gun control historically is racist, xenophobic and classist. It has ALWAYS been used to control people. It serves no other legitimate purpose.
