

Submitter: Mark Cosby

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB1076

Senate Health care committee

1st understand I sued the City of Eugene for shutting down public restrooms on over 1,200 homeless and people who come down town in 2013.

I have seen the life of homeless as I did security for several years. (my comment below is not out of a lack of compassion and looks past the crimes organized or not). Homeless is not new. So don't label me uncompassionate.

Marion and Polk County, 45 unhoused people died.

Sen. Deb Patterson, D-Salem, along with Sen. Kayse Jama, D-Portland, and Rep. Paul Evans, D-Monmouth, introduced Senate Bill 1076 that would require licensed hospitals to have specified procedures for the discharge of homeless patients following Blake's death." ??

Bet you thought were were becoming a nanny state ??

Imagine a city with out welfare... or a city like Salem with no nonprofits to care.

Since Obama Care 1st rolled out, hospital beds became filled to the max with homeless (I did security in hospitals ??).

The vi rus has 80% of Oregon hospitals operating at a loss...

?... but do you suppose Medicaid should be buying warm clothes...

Or should we wait and see what the Homeless will buy with the \$1,000 a month the Legislature just stole from us ? ??

Oh and I know... several times this winter in Eugene... Keegan warming centers were denied to homeless because of lack of volunteers (because ballot measure 112 was passed and we just

can't have slavery in Oregon).
