

Submitter: Michael Davis
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I oppose this measure. This measure is not much more than an attempt to circumvent the legal process already in play related to measure 114. This will only result in the state having to waste additional funds to attempt to defend this clearly unconstitutional measure and bill. My local police department is not equipped to handle or process the permits, the permits and the required training don't fully exist in a usable format. the increased fees create a clearly inequitable impact on low income and minorities. Oregon already has laws requiring nearly full universal background checks and the permits only create unnecessary government redundancy. Please stop punishing law abiding gun owners and vote No! Please oppose this bill!
