Measure: SB348

I oppose SB 348 as it is only a continuation of Measure 114. A measure that we all know is still on hold due to legal battle. I cannot support a bill being written in an effort to circumvent others that tied up in our court system. It seems highly unethical from my standpoint. Especially when notice has not been given to the people of Oregon that this is even happening. Thank you for taking the time to read my thoughts.
