

Submitter: Kelsey Baker  
On Behalf Of: For the American people  
Committee: Senate Committee On Judiciary  
Measure: SB348

I oppose measure 348 because it is tyranny against our Constitutional rights that were implemented for a reason. The right to protect one self and others from harm, crime and death. Banning guns won't stop the criminals or mentally unstable from getting ahold of illegal purchasing and use of guns to perpetuate serious harm and death. Not only is the 2A for protection, it is also a source to hunt and provide food for one self and families. Last but not least, we live in the land of the free. We The People must have the choice to be protected by our guns with the help of our nations 2nd Amendment right. That is our Liberty right. There are way more law abiding citizens than there are the criminally corrupt and unstable.  
God Bless America
