

Submitter: Kris Anderson

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3086

This is an attempt by the conservatives in central and eastern Oregon to unfairly dilute the voices of the greater populations in the valley and on the coast. The representation should be based upon population -- NOT upon the geographic size and features (rivers) of an area. It doesn't make any sense to redraw the boundaries in this manner -- state policies should be decided based upon what the majority of Oregon's people want -- not by the lesser number of people in central and eastern Oregon. Please do NOT support HB 3086.
