

Submitter: Troy Parker
On Behalf Of: The citizens of Oregon
Committee: Senate Committee On Judiciary
Measure: SB348

Cause our law enforcement are gonna keep us safe from the criminals? Cause the criminals with illegal firearms in the first place aren't gonna target civilians who have less ammunition to defend themselves, loved ones, and their home.

Criminals are gonna just throw up their hands and say "well shoot. Oregon passed more gun control laws for their citizens trying to respect and follow the law. Out of curtesy I guess I should also dumb down my application of illegal lethal force to make it fair for them".

Firearms are not the problem. You will allow your state, your local businesses, your homes, your friends, and your family become only less protected from those who want to do harm. You will see the same pattern that has followed every state before Oregon that has passed strict gun laws.
