Measure: HB3086

I am opposed to altering the method in which members of the Fish and Wildlife Commission are chosen. The current method of choosing one representative from each Congressional District, one from East of the Cascades and one from West of the Cascades is a much fairer way to represent the people of Oregon. And isn't that the point of the Commission? To represent all Oregonians.

I also am opposed to changing how the governor selects a Commissioner from a group of different kinds of interest backgrounds.
