Water

Measure: HB3180

House Committee On Agriculture, Land Use, Natural Resources, and Water,

We can no longer afford to push land use reforms like those proposed in BH 3180 down the road. Oregon residents, communities, and workers need relief from the land use barriers that have severely hampered renewable energy in our great state. Lets support this collaborative approach that will remove subjective regulatory roadblocks, allow for more cost competitive renewable energy projects to be built, and put trust back in the hands of our local communities.

Thank you,

Hoda
