

Submitter: Holly Keep

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB1070

I'm writing to support bill SB1070. In the justice system, may the best justice be done; in the instance of domestic crimes which were committed in a situation of fear or abuse, it must be considered when the danger of the situation itself provoked the crime and not the other way around. From a humanistic standpoint, to suffer violence or abuse is one hardship, and to defend one's self from it should not be another. When this has happened in the past it is a tragedy. But a tragedy we can do our best not to repeat. Please enact SB 1070 so that the situation surrounding a domestic crime may be fully considered.
