Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3086

I support HB3086 with the 4th amendment as this coincides with the river basin management area model for the Oregon Department of Fish and Wildlife Commission, allowing a change in representation of the 7 member ODFW Commission to the 5 river basin management areas instead of the current 6 congressional style districts. The reconfiguration of 5 river basin management areas would give the Commission fair and balanced geographical representation for each portion of the State of Oregon which would enhance oversight for the environment and wildlife management. This bill with amendments is good for Oregon as a whole, outdoor enthusiasts, and even better for our wildlife and their natural habitat.
