Measure: HB3086

"I support the river basin management area model for the ODFW Commission therefore I support HB 3086 with the -4 amendment." HB 3086 would change the representation of the seven-member ODFW Commission to the five river basin management areas instead of six congressional districts. The river basin management areas would give the Commission better geographical representation from around the state, making it a better model for wildlife management.

Lets not politicize wildlife management.
