Measure: HB3086

Committee members,

All arguments that somehow including the rest of the state in the management of ODFW activity's will somehow be LESS inclusive by including the WHOLE state are the exact reason HB 3086 with the -4 amendment with a 'do pass' recommendation is needed.

Anything else is simply a death throw of a misinformed non-consumptive Enviromental groups that needs to find another way to increase their personal wealth. These are the same groups that claimed they represented all the minorities for decades and now suddenly they are opposed to our consumptive angler lifestyle once we get involved.....their hypocritical "inclusive as long as it fits our narrative" policies need to be pointed out.

Thanks

Kai
