

Submitter: Sharon Richen  
On Behalf Of:  
Committee: House Committee On Education  
Measure: HB3198

I mentor middle school students on Google Meets. The teacher-coordinator for our mentorship program (SAGE) helps train mentors in reading skills based on brain research. It makes a big difference for our second language students as well as our native English speakers that mentors and teachers know what works and why. Please pass bill 3198 to ensure that all teachers and mentors in Oregon have the information and training they need to teach reading effectively. Rae Richen mentor for Parkrose Middle School, Portland, Oregon
