RE: Support SB 473

Chair Dembrow and Members of the Senate Education Committee:

Please support SB 473 which mandates school districts in Oregon to adopt prevention curriculum that addresses child sex trafficking. This bill is key to keeping our children safe from traffickers who prey on children. Once children understand the truth about sex slavery, what to watch for, how to avoid being coerced into it, and how to safely report it; it becomes unlikely they will fall prey to those who seek to exploit them.

Please help protect the children of Oregon, support SB 473 and move it forward.
