

Submitter: John Ware

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

Hi

I've been asked by the secretary of state to support this measure, to "access the information you need from anywhere using a cellphone or laptop".

Well I'm here to tell you that the Oregon State business portal works great for laptops already!

And I don't need and don't want mobile access, which will just distract from a slow and continuous cycle of improvement on the base laptop accessible site. I also don't want a big revamp or overhaul, which is likely to destabilize and will require learning a new UI etc. that are designed with good intentions but will eventually be discovered to have problems just like the current site.

We have a lot of challenges facing the state. Please spend our money wisely. And save some for a rainy day (or a big forest fire).
