Of:

Committee: Joint Committee On Ways and Means Subcommittee On General
Government

Measure: HB5035

With respect to Secretary of State request for additional technology funding, I believe the existing web site and thus its budget is adequate.

The state has a long history of trying to upgrade technology, only to fail wasting money, changing vendors etc. Look at ODMV technology failures as an example.

The state apparently does a poor job of selecting and monitoring technology vendors. Fix this first.
