

Submitter: John Gibson

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General  
Government

Measure: HB5035

Over the past few years, there has been some positive changes in working with the Corporation Division. Sadly, it still needs some serious updating to provide consumers with a seamless entry point in which to conduct business. This would positively impact several areas in which we work. The problem is that these technological advances need to be duplicated across multiple agencies as well. CCB, Dept of Insurance, Revenue all need a similar seamless system.
