Measure: SB473

Hello!

What a great opportunity to curtail the sex trafficking epidemic of children! Please support this bill, and our children and families.

This is your time to make a significant contribution to our world. We hope you'll stand for all of us, after all we were once children ourselves, and most of us didn't have to endure such horror. Help the kids understand how to be watchful, and even decrease the potential to propagate this ugly behavior as adults.

Thank you!!!
