

Submitter: Troy Meyer

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On General  
Government

Measure: HB5035

As a small business owner in Oregon, its becoming harder and harder to compete with out of state competition. Costs, and more importantly time, are resources that we have less and less of. Any investment in technology to stream-line processes and make it easier for small businesses to be successful would be a welcome change to our existing legacy systems.
