

Submitter: Allison Brennan

On Behalf Of: Allison Brennan

Committee: Joint Committee On Ways and Means Subcommittee On General Government

Measure: HB5035

I support specifically funding the Corporation Division to meet the needs of Oregon businesses are that not being met despite staff's best efforts. Transactions that used to take one to two business days are taking up to two weeks. The Corporation Division is doing what it can, allowing electronic Certificates of Existence and online filing for new entity formation is a great start, but so much in business hinges on how fast you can get an entity formed and get documents filed. Adequate funding is necessary to bring the Corporation Division current and allow businesses to transact with the Division effectively and quickly.
