Measure: HB3593

Dear Committee Members; I am a lifelong Oregonian and voter. This bill adds confusion to the voting process. I don't care who nominated a candidate. If that candidate is qualified, has integrity, is trustworthy, has solid character, and loves Oregon, that is the candidate I will look at. I don't need the name three times, or to know 3 different parties, etc. All of this confusion makes the voting process ripe for fraud, which is already a problem with unclean voter rolls. The election system needs to be cleaner and simpler, not made more confusing and complicated. I strongly oppose this bill.
