Committee: Joint Committee On Transportation

Measure: HB2613

I am in support of appropriating \$30,000,000 to the DEQ for the Zero-Emission Incentive Fund. The transition to electric vehicles is critical for our city's future. Electric vehicles remain prohibitively expensive for many low-income and BIPOC communities. This fund helps to reduce barriers to access and make EV ownership far more feasible for folks from different backgrounds and income brackets. This bill helps support the future of Portland that I want to see come to fruition.
