Committee: Joint Committee On Ways and Means

Measure: SB5506

I want to urge the Joint Committee to ensure the HB 2613, which adds 30 million to the Clean Vehicle Rebate Program, is passed in this legislative session. Oregon's speedy transition to electric passenger vehicles is underway, as is obvious from the fact that the fund has already been all but exhausted. Especially in view of the commitment to electric vehicle only sales by 2035, we cannot lose momentum now for lack of support from the state for the transition. Let's be sure that our road to reducing GHG emissions for future generations remain intact and a smooth pathway.
