Measure: SB5506

I have always had good health insurance and have been able to obtain health care. However I worked in public health for 35 years and saw many clients who were not able to access health care. I also had the opportunity to see the Oregon Health Plan Come onto effect. What a positive effect for so many children compared to traditional Medicare. Though I know it will be a difficult transition I believe it will be positive for all Oregonians to have all Oregonians have adequate health care.
