

Submitter: Julie Hall

On Behalf Of:

Committee: Joint Committee On Ways and Means

Measure: SB5506

This is in support of SB 91.

Please raise the \$3 Million Cap. Without a larger budget this program will help just a few children. A bigger budget means more children can be supported and included.

Please add the ability to use the funds from other programs that would have been spent on these children and families, such as K plan, to fund SB91. This also includes the savings Oregon will see with healthier and more financially stable families who are less reliant on other forms of assistance.
