

Submitter: Ricci Susick
On Behalf Of: HCAO
Committee: Senate Committee On Rules
Measure: SB1089

As a supporter of healthcare for all Oregonians, I would be most appreciative if you would support SB 1089. I am a retired Physical Therapist and have dealt with healthcare issues for over 40 years. The system is broken and we in Oregon have a chance to lead change that must happen if we want to survive. I have been lucky enough to have good insurance coverage through my employers, but most people do not! I have now experienced Medicare and it works well and affords coverage for seniors. Why can't everyone have this?? We can make it happen with universal single payor coverage for all.

SB 1809 is the critical next step NEEDED as the path forward to create an affordable and equitable healthcare system to meet Oregon's constitutional obligation and Oregon's goal of health equity. Thanks for your support!
